HEAD LICE

Some parents have let us know their children have head lice and the discovery of one case indicates that there may be others so we must all be on the look-out for these little insects which are very good at hiding. The ways you can help to keep Head Lice at bay are as follows:

- **COMB** your child's hair thoroughly twice a day for up to 28 days □ particularly before bedtime □ as combing can injure the louse and injured lice cannot lay eggs.
- **INSPECT** your child's hair daily looking for eggs because they are easier to find than lice. Working together we can reduce the number of cases.
- Check the whole family
- Those with live lice treat with one of the recommended lotions taking care to comb out all the eggs afterwards
- Some Pharmacists can now prescribe lotion for Head Lice so you don't even have to visit your GP.
- Tell people about your child having Head Lice so they can also be on the look-out.
- Children with long hair □ keep it tied up- head lice cannot jump □ but can walk from hair to hair if long hair is left down!

If you suspect your child has head lice – PLEASE DON'T IGNORE IT- Please ask your GP or pop into the school office for more help!

Sun Cream

Please ensure your child is safe in the sun at school.

If you wish your child to use sun cream, please send it into school with your child's **name clearly written on the bottle** so it can be kept by the class teacher. Children will need to be able to **apply their own cream** under the supervision of an adult in school, as staff are no longer able to apply sun cream. **There are sun creams available now that last all day** which you could apply in the morning before they come to school.

Water Bottles

Please make sure your child has a water bottle in school. It is important to keep the children hydrated with plain water – All Saints' water bottles are available from the school office for £1 or any water bottle with a sports cap can be used.

Scooters and Bikes

Scooters and bikes should not be ridden across the playground. Please ensure they are dismounted and pushed to the racks.
